DETAILED ACTION

1. Applicant's election with traverse of claims 1-21 in the reply filed on 12/10/2004 is acknowledged. The traversal is on the ground(s) that the search and examination would not present a serious burden on the Examiner. This is not found persuasive because different inventions clearly are being claimed; furthermore, because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

The requirement is still deemed proper and is therefore made FINAL.

2. Claims 22-28 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 12/10/2004.

3. This application is in condition for allowance except for the following formal matters:

4. Applicant has not given a post office address anywhere in the application papers as required by 37 CFR 1.33(a), which was in effect at the time of filing of the oath or declaration. A statement over applicant's signature providing a complete post office address is required.

5. Claims 17 and 20 are objected to because of the following informalities: claim 17, should "...from the circuit..." (line 5) properly be ---from a load---; and claim 20, "a load" be ---the load---?. Appropriate correction is required.

6. Claims 22-28 now must be canceled.

7. Claims 1-21 are allowed.
8. The following is an examiner's statement of reasons for allowance: the prior art does not teach or disclose a method and circuit comprising, in combination with remaining features of the claims, an input inductor having a first end coupled to the first terminal and a second end; a feedback path for transferring a signal from a load to the second end of the first inductor; and a blocking capacitor coupled in parallel with the input inductor forming a notch filter corresponding to a frequency of the load signal on the feedback path.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
